

THE HAIR WILL SUFFER

Unless the Right Remedy is Used.

Eczema of the scalp is one of the most annoying forms of this widespread disease. The sure cure for it is Resinol ointment. A child whose head was so encrusted that the hair was almost obliterated was practically cured in eight days. The scalp was washed with Resinol soap and then Resinol ointment was applied. Resinol stops itching instantly. It cures eczema on any surface of the body. Every form of eruptive skin disease yields to Resinol ointment. It cures ringworm, barber's itch, psoriasis, tetter, herpes, erythema, scald head and other irritating and eruptive skin diseases. As a dressing for burns and scalds Resinol is unequalled. A Resinol soap shampoo will stop dandruff and used with Resinol ointment always facilitates the cure. Resinol ointment is put up in opal jars in two sizes, fifty cents and a dollar. At all druggists. Resinol Chemical Co., Baltimore, Md.

THE ALARMING PREVALENCE OF ECZEMA

Finds Victims Among Every Race, Age and Condition.

Of all the diseases of the skin and scalp which torture and disfigure mankind, three-fourths are eczematous. Millions are born with eczema, and it is the only thing other millions have left when they die. Neglect in infancy and childhood, irritating conditions affecting the skin, ignorance of its real nature, improper remedies and many other causes that might be mentioned have created an eczema which, with varying severity, has afflicted countless numbers during their entire lives. Eczema is a skin disease. It is not regarded as hereditary, nor contagious, and is impartially distributed among the rich and poor, the high and low. The agonizing itching and burning of the skin, causing loss of sleep, is usually the most distressing symptom and is caused by the bursting of little vesicles filled with an acid fluid, which burns as with fire the denuded skin. New vesicles form, fill and burst, scales crust upon scales, and crusts upon crusts until disfigurement is added to torture.

One of the most successful treatments for eczema, whether applied to the youngest infant or the oldest person, is hot baths with Cuticura Soap and gentle anointings of Cuticura ointment. For more than a generation, these pure, sweet and gentle emollients have proved the most efficient agents in the speedy and permanent relief of all forms of eczemas, rashes, itchings and irritations of the skin and scalp. Although Cuticura soap and ointment are sold by druggists and dealers everywhere, in order that those who have suffered long and hopelessly and who have lost faith in everything may make trial of them without charge, a liberal sample of each will be mailed free to any address, together with a 32-page pamphlet, giving a description and treatment of the various forms of eczema, as well as other affections of the skin, scalp, hair and hands—send to "Cuticura," Dept. W, Boston.

In Demand.

Rodrick—That foreign nobleman is reading the stock market and I notice his eye lingers on "A. G. Preferred." What does "A. G." stand for?

Van Albert—Associated Gas, I guess. Rodrick—H'm! I thought perhaps it meant "American Girl Preferred."

ASK FOR ALLEN'S FOOT-EASE, the Antiseptic powder to shake into your shoes. Relieves Corns, Bunions, Ingrowing Nails, Blisters and Swelling feet, Blisters and Calluses spots. Sold everywhere. Don't accept any substitute. Sample FREE. Address Allen S. Olmsted, Le Roy, N.Y.

Man without patience is the lamp without oil; pride in a rage is a bad counselor.—A. de Musset.

GOOD HOUSEKEEPERS. Use the best. That's why they buy Red Cross Ball Blue. At leading grocers 5 cents.

Ignorance of one's misfortune is clear gain.—Euripides.

AEROPLANES ARE EASY MARKS

EXPERIMENTS MADE BY THE NAVY PROVE THAT

At a Distance of 1,000 Yards the Service Rifle Can Easily Put Them Out of Use.

Washington, D. C.—"It is reasonable to believe that an aeroplane, 1,000 yards away, would stand no show if only the service rifle were used."

That is the conclusion of navy officers expressed in an official report to the navy department on the first attempt ever made to shoot an aeroplane shaped kite from a battle ship.

The experiment was made April 6, when the Atlantic fleet was at target practice off Hampton Roads. Then only the service rifle was used in firing at the kites. Now preparations are being made to use a three-inch gun. The kites used were box shaped, 4x2 feet. In the third volley, aimed at the first kite sent up the string by which the kite was being towed was cut by a bullet and it sailed away without the number of hits being disclosed.

Of 160 shots fired very rapidly at the second kite 40 hits were made, several cutting the braces and frames. "As the bunting covered not more than three-fifths of the total area or the kite as presented to the ship," said the report, "it gave the excellent result of 50 hits out of 160 shots at an area of about five square feet at a rapidly plunging target 500 to 700 yards distant in the air."

NO MORE BORDER BATTLES

That is the Order Given to Mexican Following Killing of Americans at Douglas, Arizona.

Washington, D. C.—A peremptory demand was made by President Taft in a communication to the Mexican government and the insurrecto leaders at Agua Prieta that battles between the insurrectos and federals must not be fought so close to the border as to endanger the lives or property of American citizens. The Mexican government is notified that this government expects it to see that there shall be no repetition of the unfortunate incident at Agua Prieta, which resulted in the killing of two Americans and the wounding of several others.

SWOPES WILL PUT UP CASH

The Law Firm of Reed, Yates, Mastin & Harvey Will Help Prosecute Dr. Hyde.

Kansas City, Missouri.—It became known that the law firm of Reed Yates, Mastin & Harvey would assist in the second prosecution of Dr. B. Clark Hyde as in the first. That was decided at a conference between members of the Swope family and the law firm. It follows a dispatch from Los Angeles which quoted Mrs. Logan O. Swope as saying she did not feel in a position to pay another large sum for a special prosecutor. James A. Reed and Thomas A. J. Mastin will be the active representatives of the law firm.

JAIL FOR TRUST MAGNATES

Senator Kenyon Would Put Teeth in the Sherman Anti-Trust Law.

Fort Dodge, Iowa.—Make convictions under the Sherman anti-trust law punishable by jail sentences, instead of by fines, is the purpose of W. S. Kenyon, Iowa's new senator, as announced here. In a speech before the people of his home town, he declared that one of his first acts in the United States senate will be to seek an amendment to the Sherman law changing the punishment.

Asked Indemnity of Mexico. Washington, D. C.—Indemnity for the lives of Americans killed and wounded at Douglas, Ariz., by the bullets of the Mexican forces fighting across the river at Agua Prieta, will be demanded by the United States government, according to the view of the state department.

Ambassador Hill Has Resigned. Washington, D. C.—David Jayne Hill of Rochester, N. Y., ambassador of the United States to Germany, has resigned his post. The resignation has been accepted by President Taft. Neither in Mr. Hill's letter of resignation nor in the president's letter of acceptance is any reason given for the ambassador's action.

Died in St. Louis Fire. St. Louis, Missouri.—One is known to have been killed and many more are thought to have died in a fire that gutted the Essex building, 317-323 Washington avenue in the heart of St. Louis wholesale and new retail district.

TRAIN TO TEACH DRY FARMING

The Rock Island Will Join With Dry Farming Congress in Demonstrating That Method.

Denver, Colorado.—A special agricultural train will be run over the Chicago, Rock Island & Pacific railway from Tucumcari, N. M., to Kanorado, Kan., April 19-25, by the International Dry Farming congress. Lectures and demonstrations will be given from the train to the farmers along the route to spread dry farming information. Special demonstrations will be given in more than 36 towns along the route.

The Dry Farming congress is an international organization to promote practical methods of farming in semi-arid countries throughout the world. The next congress is to be held in Colorado Springs, October 17. More than 2,000 delegates are expected to attend from all parts of the world.

BULLETS CAME OVER BORDER

One Man Was Killed and Another Wounded at Douglas, Ariz., While Mexicans Were Fighting.

Douglas, Arizona.—Startled from the afternoon siesta by a storm of bullets, Douglas found itself bombarded by both rebel and federal forces when Agua Prieta, the Mexican town just across the border, was attacked by rebels.

One American in Douglas was killed outright another mortally wounded and probably ten others more or less injured by stray bullets. Robert Herrington, a switchman was shot on an engine, and killed in the railroad yards a quarter of a mile north of the line and L. C. Crow, a brakeman on the same engine was mortally wounded.

A PEACE PROJECT FAILED

President Diaz's Representatives Could Not Make Terms With Madero in the Field.

Chihuahua, Mexico.—Another peace project for Mexico failed when Frederico Moya and Dr. F. R. Seyfferts returned in motors from Madero's camp near Bustillos, 60 miles west of here, and reported their mission having been without definite result. Francisco Madero, the insurrecto leader, refused to conclude peace terms offered, which he regarded as nothing more than the promise already made by President Diaz in his congressional message.

CANADIANS WANT RECIPROCITY

Sir Frank Newnes Says He Found the People Enthusiastic for Tariff Agreement.

New York.—Sir Frank Newnes, the English publisher, who was in New York on his way homeward from a month's tour of Canada found the people of the domain overwhelmingly enthusiastic for reciprocity. He traveled from Montreal to Winnipeg, visiting the principal centers of population, particularly with a view to ascertaining the sentiment of all classes on the proposed tariff agreement.

Smudge Pots Save Fruit. Grand Junction, Colorado.—A fight of three nights against "Jack Frost" has won, according to the opinion of horticultural experts. Following a careful examination of orchards, these experts report that there will be a full crop of pears and apples, the latter escaping without smudging; and a 60 per cent peach crop. Orchardists report success in raising temperature from five to ten degrees with smudge pots.

Crucé for Guaranty Law. Oklahoma City, Ok.—Gov. Lee Crucé of Oklahoma issued a statement endorsing the state bank guaranty law, deploring the opposition of national banks to the law, and warning its enemies that the sooner it ceases the better it will be for all concerned. A threat to remove state deposits from national banks is embodied.

Splashed With Molten Steel. Philadelphia, Pa.—six workmen were killed, two fatally injured and 12 others seriously hurt at the Midvale Steel works at Wayne Junction when a container filled with molten steel gave way, the liquid splashed over more than a score of the employees.

Vice-President Corral Leaves Mexico. Vera Cruz, Mexico.—Among the passengers who embarked on the steamship Espagne of the French trans-Atlantic line were Vice-President Ramon Corral and his family who are bound for San Nazaire. From there they will go to Berlin.

IN OBEDIENCE TO ORDERS

French Boy Caused Merriment by Taking the Order of the Court Too Literally.

A droll incident is reported as having taken place in one of the provincial appeal courts in France. A boy, about 14, was summoned to give evidence, and his appearance was such as to move the whole court to laughter. He wore a long redingote, peculiar to the Basque country, and immense boots. His trousers, collar and hat were unquestionably those of a man. The court was convulsed, and the president asked the boy how he dared to treat the court in such a manner. The boy seemed as surprised as the president, and taking out the citation from his pocket, read the formula inviting him, "Comparez dans les affaires de son pere." (To appear in his father's suit.)

Expert Testimony.

There was not much to be gained from the witness on the stand, who seemed to have a wonderful faculty for holding his tongue, but the lawyer tried once more.

"You say your boat picked up the accused at nine o'clock, or thereabouts," he said. "It has been stated that he jumped overboard nearly an hour before that time. Tell me, Captain Sampson, how he appeared to you when you picked him up. If you had been required to give an opinion of him then, what would you have said?"

"Well, I'll tell ye honest," said the captain, when he had disposed of a portentous yawn. "I sh'd've said he was one o' the wettest men, if not the wettest man, that ever I see!"—Youth's Companion.

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

A Budding Star.

"The teacher informs me that Mary Anderson Wombat has considerable dramatic talent."

"That's what. Why, that girl can't recite the multiplication table without making the most elegant gestures."

Garfield Tea contains no harmful drugs. Composed of Herbs, it is an ideal laxative.

Man's best possession is a sympathetic wife.—Euripides.

Of Course.
"Why are hotel bellboys called 'Buttons'?"
"Because they're always off when you need 'em most."
Whatever you lose, you should reckon on of no account.—Publius Syrus.

For Better Health
